

ST. LOUIS

WORDCAMP

A graphic element integrated into the 'C' of the word 'WORDCAMP'. It features a stylized white archway, similar to the Gateway Arch, set against a black background. An orange banner is draped across the arch, with the year '2012' written in white on it.

Hello St Louis

Randy Hicks

@vc27 / @wpnashville

- Work for: MetaCake.com 
- WordPress since: late 2007
- Primarily: a custom theme developer.
- Help organize Nashville Meetups & WordCamp

Hooks "*actions*" & Filters

@wordcampstl 2012

<https://github.com/vc27/Presentations>

I would consider myself?

1. Well acquainted with action and filter?
2. I use them, but they're still kind of a mystery?
3. Relatively new to the topic?

A Road Map of Sorts

Action Reference
after_setup_theme
init
template_redirect
wp_head

muplugins_loaded	After must-use plugins are loaded
registered_taxonomy	For category, post_tag, etc.
registered_post_type	For post, page, etc.
plugins_loaded	After active plugins and pluggable functions are loaded
sanitize_comment_cookies	
setup_theme	
load_textdomain	For the default domain
after_setup_theme	Generally used to initialize theme settings/options. Themes , triggered immediately after the active theme is loaded. <code>add_theme_support()</code> should be called here to enable some features.
auth_cookie_malformed	
auth_cookie_valid	
set_current_user	
init	Typically used by plugins to initialize
widgets_init	
register_sidebar	For each sidebar and footer area

What are Actions?

*"Actions are the hooks
that the WordPress core launches
at specific points during execution,
or
when specific events occur."*

Look at some code :)

What are Filters?

*"Filters are the hooks that
WordPress launches to modify text
of various types before
adding it to the database or
sending it to the browser screen."*
